Renters' Insurance

All renters are encouraged to obtain renter's insurance to protect against losses of personal property resulting from theft, water, or fire damage.

Renter's insurance is available from many insurance companies for reasonable premiums, typically under $200 per year.

Most policies, in addition to providing you with coverage for property losses, will also provide you with some personal liability coverage. Each tenant is responsible for protecting his/her own property through insurance coverage.

Below are websites that offer information on how to obtain Renters Insurance in NYC.
